

Holly's Magical Fairy Tale Christmas

“Fairies love Christmas time for so many reasons, one of which is its magical qualities,” said Holly, one of the garden fairies, to Sara, the little girl who lived in the house where Holly had her garden. They were sitting on the front porch of Sara’s house.

“I love Christmas too,” said Sara, “Mama and Daddy are home on holidays, and we do all sorts of fun stuff like put up the Christmas tree and bake cookies.”

“Fairies have Christmas trees too,” said Holly, “but they are different than your Christmas tree because we have magic tinsel, and the way we lay out the magic tinsel at the base of our Christmas tree determines which decorations we have on our tree. We also string Christmas lights, but it is easier for us than for humans because we just have to take our lights out and sprinkle fairy dust on them and they go onto the tree the way they are supposed to be, all shining and bright.”
